

## Scouts To Aid In River Clean-up

The Grayling Sportsman's Club is sponsoring a project in cooperation with all of the Boy Scouts of Grayling to clean up all of the refuse that has been carelessly thrown into the AuSable River. The "clean-up" day has been scheduled for Saturday, June 5th and a great deal of work must be done between now and June 5th in order that the job may be efficiently done.

Clarence Roberts has asked that we make the following requests:

We will need twenty-five canoes to be donated for the entire day of June 5th. Canoes are to be at RAY'S by nine a. m. If you are willing to donate your canoe please notify Clarence Roberts.

We will need men and boys to supervise the work of the boys and to be at the stations where the boys will check in the articles they have taken from the river bottom. The check in stations will be at the cabin of Dr. Leonard Allison and at Burton's Landing. Donations of cash to reimburse the boys for their work are needed very badly. It is expected that the boys will be paid for their work on the basis of approximately 25¢ for each can. or bottle, 50¢ for old tires. These schedules have not been definitely set as yet but will be before "clean up" day. It is also planned that one-half of what each boy makes will be kept by himself and the other half go to his troop.

As citizens of this community we are all very anxious to maintain the natural beauty of our lakes and streams and we should all be actively interested in this worthwhile project.

For any further information about "clean up" day call Eric Post, 4801 or Clarence Roberts at 2511.

## Governor Speaks To Sportsmen

The meeting of the Grayling Sportsman's Club on Wednesday, May 19th was a very important one as a number of items of major importance were discussed.

One of the major points of discussion was the question of the attitude of the Sportsman's Club on the question of the removal of the dam at route 27 in the city. Bill Hines gave a complete report on the status of the dam removal at this time and recommended in all fairness to everyone that the club make an effort to have a joint meeting between the property owners, the club of officers and chiefs of the Fish Division of the Conservation Department at an early date, in order that the program and aims in the removal of the dam at US-27 could be explained to all concerned by the Conservation Department officials.

Another matter of importance was the agenda of the M.U.C.C. which will be voted on at the state meeting to be held in Petoskey on June 17th to 20th. There are eleven items of interest to all sportsmen to be voted on at the state meeting and each of these were carefully considered by the members present.

The Sportsman's Club members as delegates to the state meeting and were instructed how to vote for the Grayling club.

The members had the pleasure of seeing the movie entitled the Modern Paul Bunyan which tells the story of present day lumbering on the west coast. The film was brought to the club by T. P. Peterson.

Just as the meeting had reached its conclusion the members were very pleasantly surprised to have an unexpected visit from Governor Williams. The Governor gave a short talk and told the members that he was most anxious to have complete cooperation between all of the Sportsman's Clubs and the Michigan Conservation Department and that they would always welcome constructive suggestions relating to conservation matters. The Governor was brought to the meeting by Conservation Commissioner George Griffith.

### Vikings Second At Petoskey Relays

The Grayling-Vikings took second place at the Petoskey Relays last Tuesday night finishing behind Charlevoix 43 to 38 points. Grayling won the last relay race but was disqualified due to the passing of a baton from one runner to another outside of the passing zone. This eliminated the Vikings from any points and made the Red Raiders from Charlevoix the victors in the event and also of the Relays.

Competing in the Class C events besides the Vikings and the victors were Gaylord, Kalkaska, Harbor Springs, Boyne City, Ellsworth, Roscommon and Mancelona.

Scoring points for Grayling were Lloyd Failing who was second in the pole vault and Gary Parkinson who tied for fifth in the same event. Ken Lazarowicz took a second place in the 100 yard dash. Tom and Mike Gibbons and Failing and Frank Lude-man won the three-quarter medley relay and took a second place in the 880 yard relay. Grayling placed third in the 440 yard relay with Ludeman, Lazarowicz, Richard Hamilton and Dale Pettengill making up the team. In the mile medley relay, Grayling finished first in Class C but were disqualified on baton passing.

A seventh and eighth grade team made up of Larry Yoder, Carl Golnick, Richard Moore and Bill Holzman were first in Class C and third in open class in a 440 yard relay race.

At the State High School Track Meet held at Ann Arbor last Saturday, Lloyd Failing tied for third place in the pole vault and garnered 5 points which gave Grayling a 19th place in Class C in the state. Houghton Lake finished in 37th place in only other northern Class C school to score.

The conference track meet will be held in Charlevoix this Saturday and Grayling is figured as a real strong contender to wrest the crown from the host team. Coach Bruce Smith has but one senior on the squad so it is expected that the Vikings will be a real powerhouse next track season.

### Program To Remain About The Same

The dedication of a new non-denominational rustic chapel at the Hartwick Pines State Park has been postponed from June 7 to June 21 as the donor or the person to whom the building is to be dedicated could not attend on the first selected day, it has been announced by the Kiwanis Club of Grayling.

The Grayling Kiwanians were selected by the donor to handle the dedication as the building is to be dedicated in the name of a co-founder and first president of Kiwanis, Donald A. Johnston of Detroit.

The all log, simple and rustic chapel will be turned over to the State of Michigan through the Conservation Department in the same ceremonies. The dedication ceremony will get underway at 6:15 p. m. with a potluck dinner at the Hartwick Pines Park and the ceremony will follow before the impressive building. The new chapel which cost about \$15,000 to erect was kept in a log style to go with the park. But in all of its simplicity, it will never fail to impress the visitor.

All clergy of Grayling and Crawford County will be invited to attend the ceremonies with each taking a small part in the dedication. All wives of the guests and members of the Grayling Kiwanis Club will also be guests at the dinner and following program.

It has been announced by William Joseph, president of the Kiwanis Club of Grayling that the dedication ceremonies will be open to the public. He explained that due to the fact that the meal would be a planned potluck, it would be impossible to invite the public to the meal but suggested that Grayling people wishing to attend the ceremonies plan a picnic dinner at the park that evening and follow by attending the ceremonies. The plan to open the ceremonies to the public was announced following a number of phone calls to club officials requesting permission to attend the rites.

The Kiwanians will meet with the members of the Grayling Golf Club next Monday evening at the Grayling Golf Club at the season's first general social meeting of the Golf Club members. This meeting will take the place of the usual session next week.

## Dividing Your Retail Dollar . . .

A large proportion of most people's spendable income goes across store counters in exchange for food and merchandise. So it's natural that we should be interested in just what happens to our retail dollars—including the proportion retailers keep as profit.

One of the country's leading food chains, which did more than a billion dollars worth of business last year, has issued a graphic leaflet showing where each one of those dollars went.

First of all, 80 1-10 cents was spent for farm products, other merchandise, and all handling costs except wages and taxes.

Next, wages and salaries accounted for 11 6-10 cents.

The tax collectors came along then, for a total of 2 3-10 cents.

Store rent and utility services came to 1 6-10 cents, and advertising, contributions and administrative costs took 1 2-10 cents.

This left 1 2-10 cents, which was earned as profit. But not all of this went to the owners. The shareowners got seven-tenths of a cent only, and the final half cent was invested in facilities and equipment.

The big point to the consumer is that retail profits, measured as a percentage of total sales, are much smaller than is generally understood. And that is true of all merchandising fields.

This 200-horsepower Buick Century  
is the Riviera—the hardtop model  
that's taking America  
by storm.

## Live wire that really looks it

(One reason why Buick is such a big success this year!)

ITS sports-car lines tell you there's lift and spirit here enough for any man.

Even standing still this glamor car looks alive.

And that look-of-tomorrow styling that's part and parcel of every new Buick — that sweeping panoramic windshield with the dream-car slant — all that says there's action here, and plenty of it.

But just note the name "CENTURY" emblazoned on its rear fender, and you can take it as gospel that this is a performance car of the very first water.

It's the livest of the live wires—the highest-voltage Buick in the line.

It is instant on getaway, a joy in cruising, a breeze on hills — and a honey of a friend in the added safety of its plenty reserve power always on hand for sudden needs.

It is, in fact, a 200-horsepower performance car, and priced far below it — the highest-powered car at its price in the land.

With this great-powered good-

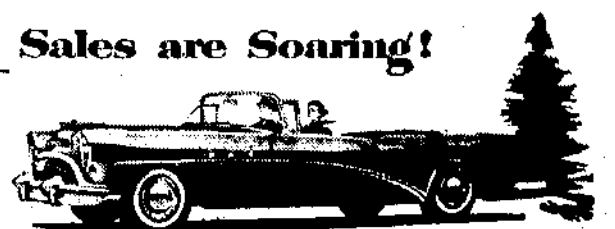

looker setting the pace — and with equally impressive SPECIALS, SUPERS and ROADMASTERS adding to the excitement — is it any wonder Buick today is outselling every other car in America except two of the so-called "low-price three"?

Come in and try one of these gorgeous new Buicks. With the prices we're quoting, you can make the buy of the year this very week.

### Charles Ostranders Mark 50th Wedding Anniversary

Mr. and Mrs. Charles Ostrander, former residents of Grayling, celebrated their 50th wedding anniversary on May 17th at the Goodwill Center in Roscommon. Sixty-two relatives and friends came to wish them many more years of wedded life. Their granddaughter, Susanne Knibbs and Joyce Williams, accompanied by Mrs. T. Williams at the piano, sang three beautiful songs, "Because", "Love Sends a Little Gift of Roses" and the "Sunshine of Your Smile". Mr. Ostrander is the son of the late Perry and Elizabeth Piper Ostrander, pioneer residents of Crawford County. He and Mrs. Ostrander, the former Miss Nellie Clay of Ontario, Canada, were married at Ox Bow, Saskatchewan, Canada, May 17th, 1904. They were blessed with four children. Mrs. Roy Scott, Mrs. Mildred Knibbs of Roscommon, Mrs. Duell Vincent of Battle Creek and a son, Walter, who passed away at Ox Bow, before the family moved here. They also have five grandchildren.

Refreshments at the celebration were served by the Rebekah Lodge No. 493 of Roscommon. The happy couple received many lovely gifts.

### Bits O' Talk

Mrs. Vilho Wirtanen and daughter, Linda, returned to their home at Lake Geneva, Wis. Sunday after a two weeks visit with Mr. and Mrs. Jonas Wirtanen. Mr. Wirtanen came to accompany them home.

Mr. and Mrs. Eugene Papendick visited the former's brother, Edwin Papendick and family in Ashley, Mich., the week end of May 15th. On Sunday the two couples attended the reception at Birch Run of their nephew and wife, Mr. and Mrs. Robert Papendick, the bride having been the former Pearl Connors. The groom is the son of Mrs. Amanda Gund of Flint and the late Allen Papendick.

Gary Hatfield, of Gaylord, son of Mr. and Mrs. Harold Hatfield Sr., who was so seriously wounded in Korea, is now at the Veterans Hospital in Ann Arbor where he has had skin grafting done on his right leg, and is reported as getting along nicely. When he first entered the hospital it was thought that the leg would have to be amputated, but doctors are trying to save it. It is hoped he will be returning to the hospital for further treatment. He will be at the hospital for about a week more when he will be returning to his home in Gaylord. If any of his Grayling friends would like to send him a card his address is 4th floor, Veterans Hospital, Ann Arbor.

Mrs. Perry Wells and daughter Vicki of Lansing are spending a couple of weeks visiting her mother Mrs. A. F. Doner, who Mrs. Wells is in Chicago on business.

Mrs. Thomas Wells enjoyed having relatives and friends drop in at her home Wednesday evening of last week, when she celebrated her birthday anniversary.

### Home Extension Group Members Enjoy Gardening Talk

Monday of last week a meeting of Crawford County Extension group members was called to meet at the Court room in the Court House. During the forenoon a summarization of program requests for the next year was discussed and the program finally settled on "three regular lessons to be given and one on retrimming and upholstering. Mrs. Mary B. Van Altsburg, district home demonstration agent of Kalkaska, was in charge. This meeting was for chairmen and vice-chairmen.

In the afternoon the group members listened to an interesting talk on gardening given by Robert Dewey, agricultural agent of this and Kalkaska counties. He dealt mostly with trees, lawns and fertilizing, which led to a general discussion among the members. Mr. Dewey gave some very helpful advice.

### "SHARE THE ROAD KEEP IN LANE"

Sheriff John A. Papendick today announced that the County of Crawford is cooperating with the State Safety Commission on the state-wide program aimed at reducing traffic accidents due to dangerous passing.

According to Sheriff Papendick passing is one of the most difficult and dangerous maneuvers a motorist can make in traffic. This is because in most instances it requires crossing the center line and facing oncoming traffic head on, and pulling back into the right hand lane.

In an all out effort to help motorists to do their passing more safely an intensive public education program is planned over the two months of June and July. The Michigan Trucking Association, one of the co-sponsors of the program, has made possible the distribution of 200,000 leaflets containing twenty safety tips on passing and 10,000 posters carrying the message "SHARE THE ROAD — KEEP IN LANE".

The Sheriff pointed out that motorists should be particularly careful in trying to pass a car on short stretches of highway between hills, curves and intersections. At such places, if a mistake in timing is made, the passing maneuver may end up with an oncoming car arriving before the pass is completed.

Sheriff Papendick called upon all motorists to cooperate on this safety campaign and improve their passing habits so that we may reduce traffic accidents without his department having to arrest more motorists for illegal passing.

### Michigan Mirror

Dissension in Conservation administration has cooked up some lively controversies during recent years . . . and more can be expected until some changes are made.

This seems the opinion of several newspaper people close to the scene as well as other observers who have watched the wrangling. A rugged fight was expected at the most recent meeting of the Conservation Commission May 6 at Higgins Lake. That it failed to take place doesn't mean that all the ingredients for continued controversy aren't still present. In the opinion of most people qualified to judge, they are.

Basic trouble seems to be a deep seated difference in philosophies about the way the department should be run. Gerald E. Eddy, director since 1951, believes that the future of conservation depends on technical application by trained men to problems that develop. He defines the most fundamental problem at present as "supplying more game and fish to a rapidly increasing population with more time to spend in the woods and with money to spend on outdoor equipment and trips".

This approach conflicts squarely, consistently and all too often with attitudes usually championed by Commissioner Joseph Rahilly. These might be described as "the practical approach" as contrasted with administration policies based on sound scientific research. Rahilly does not exactly ignore research, but he is reported as taking it with a grain of salt—particularly if its findings do not coincide with what he learned "from the folks back home".

Rahilly has the longest record in the department, supporting another candidate. When Eddy was appointed, Rahilly was quoted as saying that "he would be back in the saddle within a year".

There were indications that skids were being greased to demote Deputy Conservation Director Wayland Osgood at the May meeting. Although sources were difficult to prove, the word definitely was out that Osgood's "poor handling of legislative matters during the session demanded that he be replaced".

Handwriting on the wall was so clear that a number of supporters rushed in to supply strong backing. Among them were some well known newspaper men and some legislators.

The situation was headed off at the May Conservation meeting by positive action. Rep. Hugo A. Nel-

son, Republican from Indian River, appeared at the meeting accompanied by Rep. Walter G. Nakkula (R-Gladwin), a member of Fish and Fisheries and Geological Survey Committees. Nelson, who is a member of the House Conservation Committee and chairman of the House Fish Committee, and Nakkula both spoke in favor of Osgood's activities with the legislature, stressing the high regard they had for his ability.

Commissioners received the report happily and no more was said at the meeting about replacing Osgood. Presumably, the issue of his demotion or discharge is now a dead one.

This fight is but one battle in the deeper conflict about who is going to run the conservation department and how it shall be run. Personalities have long been involved. They still are. There is no reason to imagine that this hard feeling will subside. Peace can come only when there is relative harmony among commission members and the department administration. This will probably require a change in the membership of the Conservation Commission.

"Read The Avalanche"

From where I sit... by Joe Marsh

### "High-Priced" Mistake

Maybe you noticed the big "ad" Red Smith's Furniture Store ran in The Clarion last week.

One item caused some embarrassment around here. It read: "4-piece Bedroom Suite, regular price \$119.50, bargain price \$149.50." Guess I didn't "proof-read" too well, and when our pressman asked for the go-ahead, I yelled, "Let 'er go."

All kinds of jokes about the mistake. One fellow asked if Smith's was holding the price line so tight it just snapped. Turned out fine in the end—Red

sold that suite for the real sale price, of course.

From where I sit, it's lucky my carelessness didn't cost Red any business. I'm the one who's always "experting" on being careful—careful of our responsibilities, careful of our neighbors' rights. Even careful to respect the other fellow's preference for a glass of beer. Let's all make a bargain to be more careful in the future.

ONLY ONE GRADE—AMERICA'S GREATEST GASOLINE VALUE

# THE NEW BLUE SUNOCO WINS AGAINST 'PREMIUMS'

Delivers as much as 14.9% more miles per dollar than 16 premium-priced gasolines tested at Indianapolis Track

All the claims of other gasolines can't change results of this test

**The Test:** Each day of test, 16 cars (including cars with highest compression engines) were fueled with \$3 worth of gas, driven around track 'til tanks ran dry. Miles each car went were accurately recorded by impartial observers. The fleet of cars was run on New High-Test Blue Sunoco and all 16 premium-priced gasolines. All cars were driven at same pace.

**Results:** New Blue Sunoco—at regular gas price—beat them all! It gave up to 14.9% more miles (average: 10.4%) than premium-priced brands tested. Ask your Sunoco dealer for names of these brands.

WILBUR SHAW, Pres. of Indianapolis Motor Speedway Corp., and 3-time winner of the 500-mile race, supervised this gasoline test.

INDIANAPOLIS TRACK—New High-Test Blue Sunoco was tested here against 16 well-known premium-priced gasolines. Wilbur Shaw says: "With all cars using \$3 worth of gasoline, I saw how much farther those using New High-Test Blue Sunoco went than those fueled with the 16 premium-priced brands tested."

How Sun's one-grade policy gives you high-test performance at regular gas price

Sun Oil Company produces only one grade of gasoline—New High-Test Blue Sunoco. This single-grade policy results in savings on storage tanks, trucks and pumps. These savings are invested in research and new, improved refining processes to give you New High-Test Blue Sunoco—premium quality still at regular gasoline price.
